

ABOUT MEDIUM READINGS WITH JACQUELENE CLOSE MOORE

Medium Readings - Connection with and messages from passed over loved ones. Not predictive in nature.

Your passed over loved ones are never far away, and are most easily able to communicate with you between sleeping and waking hours, because you are more likely to be open to simply receiving their messages freely...

Medium readings

? Are for healing, connection with and progression of passed over loved ones.

? They are not meant to be trivial, repetitive, for entertainment purposes, nor predictive in nature.

? A reading can be booked with Jacqueline, so long as :-

A) You have not had another reading within 4 months prior to your medium reading with Jacqueline,

B) You haven't booked another medium or psychic for just after your medium reading with Jacqueline

C) You have other topics of concern to look at at this time as well and don't mind booking a predictive reading, under the terms of that service.

Jacqueline treats passed over being and beings in spirit, as on earth, with as much dignity, humility, and respect as possible. It's the same dignity she would hope to be treated with once she passes over.

Jacqueline affords peace to spirits where possible.... living or passed.

How To Book A Medium Reading

Currently, Jacqueline is working from a **full and closed list** for Medium Readings

Reasons Jacqueline will refuse a medium reading

? If you have lots of medium readings in short succession, or you have had a reading within 4 months before your booking or are going to have another reading within 4 months after your medium reading with Jacqueline

? If you give the details about your passed over loved one and too much information about you before booking

? If you highly likely to be very judgemental towards each psychic or medium you visit

Why is there normally at least a 12 month wait for medium readings with most mediums?

? For some people, the grief experienced by the living family left behind can be too intense in the first few months to have a medium reading. The client may need instead to work with a grief counsellor in the meantime before seeking out mediumship to connect with their passed over loved one. Jacqueline strongly suggests you obtain grief counselling, and not just readings to help you with grief about the loss of a loved one.

? To avoid the extreme overuse and trivialization of mediumship that is present in society at the moment.

Some spirits pass into the light and back immediately and almost effortlessly and are immediately contactable, while others may take time in reflection, review, and healing. If a spirit has reincarnated, they generally won't be contactable.

ABOUT MEDIUM READINGS WITH JACQUELENE CLOSE MOORE

Can I record a medium reading? Yes, as long as your technology decides to work at the time of your session, you can audio record your reading on your smart phone or other audio recording device. Video is not allowed except where expressed written permission was given prior to the session.

- ❓ Jacqueline discourages addiction to readings, and was turned off giving medium readings as readily as in the past when encountering the types of clients who did not really respect the craft... read the below file "The Mexican Hat Dance" for more.
